

Making It Better, Together.

Wednesday, June 30, 2021 6:00 PM
Camden County Roadway Safety Improvements
Evesham Road (CR 544) and White Horse Road (CR 673)
Cherry Hill and Voorhees Townships, Camden County

Camden County is committed to developing transportation improvements that best balance transportation needs, the environment, community concerns, and costs. Camden County is holding a **Virtual Public Information Center** to inform local residents, officials, and community with information on the **Camden County Roadway Safety Improvement project**. You are encouraged to participate by providing comments at the meeting, by mail, or e-mail.

THE MEETING

Due to the COVID-19 Public Health concerns, the Public Information Center will be held virtually on **June 30, 2021 at 6:00PM**. To participate in the live virtual Public Information Center, go to **Camden County, NJ Public Works Department website** at <https://www.camdencounty.com/service/public-works/engineering/>. The virtual Public Information Center **will be recorded** and posted to the Public Works Department website. Please visit this website any time between **July 1 to July 14, 2021** to learn more about the project and leave comments. A survey form link for the project is available at <https://forms.office.com/r/iiKQ3gRG91>. Property owners with rental units are advised that tenants are also invited and encouraged to participate.

BACKGROUND

For this project, Camden County is using funds from the Federal Highway Administration that are administered by New Jersey Department of Transportation (NJDOT), Bureau of Local Aid and Economic Development. The project evaluated 12 sites for guiderail improvements. 10 of the sites had existing guiderail installations and 2 sites with no existing guiderail. Each site was analyzed to determine if guiderail was warranted, and the existing installations were compared to the current guiderail standards.

PROPOSED GUIDERAIL IMPROVEMENTS

The primary project purpose is to bring certain existing guiderail systems into compliance with current standards or install new guiderail systems where warranted along Evesham Road (CR544) in Cherry Hill and Voorhees Townships, and White Horse Road (CR673) in Voorhees Township. The design took into consideration the need to avoid requiring individual regulatory permits, avoid additional right-of-way and minimize utility relocations.

PROJECT SCHEDULE:

Anticipated Construction Start Spring 2022

Anticipated Construction End Fall 2022

HISTORIC AND CULTURAL RESOURCES:

Federal regulations pertaining to the protection of historic properties, referred to as the Section 106 process, require the Camden County and NJDOT to take into account the effect of proposed projects upon historic resources listed in, or eligible for listing in, the National Register of Historic Places. Information about the process is available at <https://www.achp.gov/sites/default/files/documents/2017-01/CitizenGuide.pdf>. Camden County and NJDOT are required to solicit public input to assist in carrying out the Section 106 process. Historic preservation organizations, historical societies, and similar groups, or individuals with information about cultural resources (archaeological or architectural) in the project area are encouraged to attend the Public Information Center and provide comments.
