

# **NJ** Child Care Assistance Program

## **PARENT MEETINGS**

If you are a parent of a child getting help paying for child care from the New Jersey Child Care Assistance Program (CCAP), we would like to hear from you! We are the NJ Division of Family Development, New Jersey's state agency that oversees child care policy, and we are interested in your views and experiences.

Topics of discussion include the new copayment policy and your child care needs (for example non-traditional hours and preschool expansion).
